

Crittenton Services for Children and Families

kindness pledge

YES! I join Crittenton Services for Children and Families in pledging that I will work to help foster an environment where kindness, respect, and compassion is at the forefront of every action and conversation. I acknowledge that hate, discrimination and bullying exists and these forces should never be normalized in our community. Therefore, I commit myself in bringing awareness and lending my voice to speak on behalf of the most vulnerable children, youth and families who are the most susceptible to bullying and intolerance.

Today and every day, I will do my part in creating an inclusive community by choosing kindness.

I Commit To

○
Speak out against bullying, hate,
discrimination and intolerance

○
Host events about bullying prevention
at my church/school/club

○
Use social media to educate those
in my network about bullying prevention

○
Dedicate time to learning how you can
help prevent bullying in your community

○
Mentor youth to engage in healthy,
respectful and compassionate ways
with all peers and community members
